

Homebuilt Aircraft Interiors

Maximum Comfort and Style for Your **VAN'S AIRCRAFT**

You Built it, Now Finish it with an Oregon Aero Interior

Oregon Aero can build a custom interior for your RV Aircraft. We offer custom upholstery in your choice of leather, vinyl, fabric, and sheepskin materials. Custom embroidery options are also available. Oregon Aero interiors are FAA compliant and are backed by our **100% Satisfaction guarantee**. Fabrication and installation are performed at our repair station at Scappoose Industrial Airpark(KSPB) in Scappoose, Oregon. If your aircraft is within 100 miles of our facility we can make arrangements to do the install at your location.

Interior panels and fitted carpeting fabricated in-house

Van's RV-10

Van's RV-8

Door panels, console cover, and custom storage pockets

Your homebuilt interior includes our famous VK SmartCushion™ seating system. Your seats will be built using the same technology that goes into our OEM, certified, and military seating. Each cushion is built piece by piece using as many as 11 different materials. The materials are arranged to put the occupant into the proper—painless—seating position. As a result, you and your passengers can fly longer without constant nagging seat pain.
