

Aerospace Products For Down to Earth Comfort®

Oregon Aero® HushKit® Passive Ear Cup Noise Attenuation Kit
Part Number: 92050 - For HGU/SPH Aviation Helmets

Installation Instructions

1. Remove the ear seal from the ear cup. Work the speaker and the foam out of the cup, leaving the speaker hanging off to one side (**Figure 1**).
2. Place the solid piece of foam into the bottom of the ear cup. Pull the speaker through the hole in the second piece of foam and press foam into the ear cup with your finger (**Figure 2**).
3. Re-insert speaker into the provided space and install the speaker cover by tucking it under the ear cup flange (**Figure 3**).
4. Re-install ear seal and attach ear cup to the helmet.

Satisfaction Guarantee

If you are not satisfied with your Oregon Aero product for any reason, you have 30 calendar days to return the product from the date you purchased it for a full refund or exchange. To be eligible, product must be in good condition and include the receipt.

Limited Warranty

This product is backed by a limited warranty against defects in manufacture for a period of two years from the date of purchase. In the event we receive the return of this product within the warranty period, and we agree that the product is defective, our sole obligation shall be to replace the product at no charge. We disclaim all other express or implied warranties, including any implied warranty of merchantability or fitness for a particular use. Some states do not permit the limitation of implied warranties, so this information may not apply to you.
