Oregon Aero® Tactical Elbow Pads
Part Number: 43021

Oregon Aero Tactical Elbow pads were designed for use in the Army Combat Uniform(ACU). The ACU has built-in pouches for internal elbow pad inserts. Pouches have hook-and-loop tape closures to secure the pads in place. These pads may also be compatible with Law Enforcement Uniforms that incorporate the same design.

Oregon Aero manufactures the most comfortable elbow pads available. Multiple-layer pad design consists of specially formulated polymer foam and moisture-wicking fabric. Pads are encased with polyurethane-coated nylon packcloth. Oregon Aero pads offer superior water repellency and extreme durability. The shape and construction of these pads allow full range of arm motion.

Installation Instructions

Installing your Tactical Elbow Pads is easy. Open the hook-and-loop closure at the top edge of the pouch on the ACU jacket. Insert pad into the pouch as indicated by "THIS SIDE UP" printed on the outside of the nylon cover.

You may need to roll the outer edges of the pad slightly for it to fit through the opening. Once the pad is fully inserted into the pouch, re-seal the hook-and-loop closure.

Care and Cleaning

To clean your pads wash them by hand with a solution of mild soap and warm water. Use a soft bristle brush to clean the outer cover. Allow pads to air dry completely before re-installing. Never put pads in a clothes dryer.
