

Proven Design

Oregon Aero has a lengthy, proven record of extraordinary innovation and design. The results continue to be exceptional product performance for aviation, law enforcement, the military, other industries and the general public.

Precision Engineering

State-of-the-art engineering and superb technical craftsmanship set us apart. Our skilled and forward-thinking engineers make sure that Oregon Aero products offer maximum comfort, improve impact protection and reduce noise.

Built for You

You can trust Oregon Aero to make you comfortable and keep you safe on or off the job. As the leader in engineering, testing, certifying and manufacturing advanced seating systems, Oregon Aero has been developing comfort products for nearly 25 years – built in the U.S.A. and built for you.

CIVILIAN & MILITARY Headset & Helmet Upgrade Kits

**Your Best Helmet Or Headset
Is the One You Already Own –
With an Oregon Aero® Upgrade**

Ultimate Comfort designed for use with your existing Helmet or Headset

Helmet Upgrade Kit

Oregon Aero understands how helmets need to function. We also understand the problems helmet users experience, why the problems exist, and how to solve them. Our pain-free, quieter Upgrade Kits dramatically improve the performance of today's multiple-purpose helmets. Oregon Aero has Custom Upgrade Kits for most helmet models. Kits perform best when all components are installed.

Headset Upgrade Kit

For a fraction of the cost of a new headset, you can upgrade the headset you already own to improve comfort and performance. Experience improved intelligibility and transmission clarity; cool, dry ears; and pain-free flying. Oregon Aero has Custom Upgrade Kits for more than 150 models. Kits perform best when all components are installed.

Easy Installation

or send to us and let our specialists install it for you
