

Aerospace Products For Down to Earth Comfort®

Oregon Aero® Helmet Upgrade Kit for the HGU-56P Helmet
Part Number: 96100

Installation Instructions

1. Remove the original ear seal and foam insulation from the ear cup.
2. Slip the speaker into the slot on the back side of the **HushKit®** Passive Noise Attenuation Kit. Make sure the face of the speaker is facing the black fabric.
3. Insert the HushKit Passive Noise Attenuation Kit into the ear cup with the black fabric facing up. It might be helpful to use a flat screwdriver to help the HushKit lie flat in the ear cup.
4. Attach the new **SoftSeal®** Ear Cushion to the ear cup by stretching the vinyl flange around the outside of the ear cup.
5. Install the **SoftSkin®** Ear Seal Cover by stretching the elastic band over the ear seal. Tuck the extra material inside the ear seal opening. The SoftSkin covers are intentionally large so they do not apply pressure to your ears.
6. Repeat steps 1-5 for the other ear cup.

Satisfaction Guarantee

If you are not satisfied with your Oregon Aero product for any reason, you have 30 calendar days to return the product from the date you purchased it for a full refund or exchange. To be eligible, product must be in good condition and include the receipt.

Limited Warranty

This product is backed by a limited warranty against defects in manufacture for a period of two years from the date of purchase. In the event we receive the return of this product within the warranty period, and we agree that the product is defective, our sole obligation shall be to replace the product at no charge. We disclaim all other express or implied warranties, including any implied warranty of merchantability or fitness for a particular use. Some states do not permit the limitation of implied warranties, so this information may not apply to you.
